Have you ever thought of promoting your company by creating a Character Mascot?

Have you ever thought about creating a character mascot that are trademark or logo of your company?

Creating character mascot represents a visual communication tool able to merge a character to a company logo, to promote products and build around them promotional campaigns and events.

MaKot23 takes care of transforming the idea of your character or your logo, in a costume character of high quality and durable, made with care and attention to detail.

Also, if you have an idea of the character that you want to achieve, our staff is able to design and propose concepts and sketches.

MasKot23 to offer a more complete and interactive service, has a modern art department can produce sets, stands, advertising installations and installations in large 3D.

The sculpture department deals with creating prototypes, large sculptures molds and replicas in different types of resins
